High shear capacity BOP

Product applicable: It is appropriate to shear high performance, thick walled drill pipe and casing.

Product Feature

- Using large cylinder or equipped tandem booster to enhance the shear force
- Can realize shearing high level drill pipe under pressure
- Reliable sealing performance, can shear multiple times;
- The shear blade can disassemble and change

V-150	25000psi	177°C
Max shear drill pipe level	Max sealing pressure	Highest Temperature Class
